Pages: 2
Distribution: F

This supplement applies to all units deployed, assigned, attached, or tenant to the 51st Fighter Wing.

SUMMARY OF REVISIONS

Added use of automated file as a control register instead of AF Form 600.

AFMAN 23-110, 1 January 2004, Vol 2, Pt 2, Chap 22, is supplemented as follows:

22.1. The Equipment Liaison Office (ELO) will be established within the Consolidated Customer Support Element (CCSE), 51 LRS/LGRSC, and will interface with base-level customers and the PACAF Regional Supply Squadron (RSS). All equipment responsibilities and processes, as outlined in this chapter, are realigned to either the PACAF RSS or ELO, as specified in PACAFI 23-206.

22.12. The maximum time limit for processing equipment transactions is 15 duty days.

22.21.6. NOTE: A computer file will be used as a document control register instead of an AF Form 600, **Equipment Control Register**, as a document control register.

22.25.2.1.1. A computer file will be used instead of AF Form 600 as a document control register.

22.25.3. A computer file will be used instead of AF Form 600 as a document control register.

22.25.6. A computer file will be used instead of AF Form 600 as a document control register.

22.69.2.1.5. The CCSE will keep the FED cards and establishes the deployment due-in file.

A-1, Table A1.1, NOTE 4b: Off-base custodians are authorized 30 duty days to return signed CA/CRLs.

AC-1, C1.2.4. The CCSE will maintain the listing of authorized equipment custodians on microcomputer files. A letter containing the authorized signature will be filed in the CA/CRL jacket folder. A report of authorized equipment custodians will be produced at least monthly and copies will be provided to Document Control Section (51 LRS/LGRSP), Inbound Element (51 LRS/LGRDCI) and the Vehicle Operations Element, Pick-up and Delivery Section (51 LRS/LGRVO). The custodian list need not be sent to Training

Section because when the individual completes Block III training they are given a certificate to verify that they completed the training. Training Section will provide the CCSE with a list of the individuals that completed Block III training to help identify qualified equipment custodians.

MAURICE H. FORSYTH, Brigadier General, USAF
Commander 51st Fighter Wing
